ABOUT THE EDITOR AND AUTHORS

Prof. Dr. Ali DEMİRSOY was born in Yuva, Kemaliye in 1945. He is one of the leading scientists

among Animal Systematicians in Türkiye and also is professor in the Biology Department at Hacettepe University. Ali Demirsoy received his PhD degree from Atatürk University in Erzurum, and specializes in Turkish Orthoptera and Odonata fauna and Zoogeography. He teaches Invertebrate and Vertebrate Biology and Systematics, Zoogeography and Evolution. Ali Demirsoy is also author of a series of books on biology entitled *Fundamental Rules of Life*. He also published books such as *Evolution*, *Turkish Zoogeography*, *Turkish Amphibia*, *Turkish Reptilia* and *Turkish Mammals*. He has published many scientific papers and also is project manager and holds an administrative position.

Prof. Dr. Nuri YİĞİT was born in Alanya in 1963. He is professor in the Biology Department of

Ankara University and teaches Vertebrate Biology, Principles of Systematic, Animal Ecology and Evolution. Nuri Yiğit received his PhD from Ankara University with his PhD thesis "Taxonomic Status and Distribution genus *Meriones* (Mammalia: Rodentia) in Türkiye" in 1995. Dr Yiğit specializes in Turkish rodents and his research interests cover mammalian systematics, population genetics and vertebrate ecology. Dr. Nuri Yiğit has published more than 80 scientific papers and has taken part as project manager and researcher in many national and international projects.

Prof. Dr. Ercüment ÇOLAK was born in Çayeli, Rize in 1960. His PhD thesis is titled "Taxonomic

status and distribution of the genus *Allactaga* Cuvier, 1836 (Mammalia: Rodentia) in Türkiye". Dr. E. Çolak is now professor in the Biology Department of Ankara University, and teaches Vertebrate Biology and Evolution. He has published more than 80 scientific papers and has taken part as project manager and researcher in many national and international projects.

Assoc. Prof. Dr. Mustafa SÖZEN He was born in Akseki, Antalya in 1967, Associate Professor in

Animal Systematics and is at present Head of the Biology Department Karaelmas University, Zonguldak. He received his MSc and PhD degrees from Ankara University between 1990 and 2000. His research interests are in taxonomy, biology, zoogeography and the conservation of mammals. He focused especially on rodents of Türkiye and published about 60 scientific papers. Dr. Sözen either managed or participated in many scientific research projects supported by Ankara University, Zonguldak Karaelmas University and TÜBİTAK.

Assoc. Prof. Dr. Ahmet KARATAŞ was born in Bulancak, Giresun in 1971. He received his BS at

Ege University in 1989 and he finished his MSc and PhD theses at same university in 1996 and 2000, respectively. His scientific studies are mainly on Turkish bats and other mammals, especially their systematics, and zoogeography. He teaches Vertebrate Systematics, Comparative Anatomy of Vertebrates, Principles and Methods of Taxonomy at the Biology Department of Niğde University. Dr. Ahmet Karataş has published over 40 scientific papers and he has worked in many national and international projects as project manager and researcher.
